

# BUSH care

## Riparian Rehabilitation Workshop

Presented by the **Waterworks Valley Landcare Group**.

Showcasing *riparian values, threats and management activities* in Hobart's Waterworks Valley.

An on-site workshop exploring current and best practice management techniques and theories. Workshop will include a tour of riparian sites at various stages of rehabilitation.

**10 am - 1.30 pm Sunday 3 May 2009**

**Specialist presenters include:**

**Amy Jansen**, Ecologist and riparian specialist involved in the recent development of the Tasmanian River Condition Index.

**Nick Gust**, DPIW Project Leader, Platypus Conservation Project.

**Members of the Waterworks Valley Landcare Group** talk about the challenges and successes experienced during a decade of riparian restoration work in an urban catchment.

**RSVP by Tue 28 April essential - Limited to 20 participants**

Meet at the Quarry on Waterworks Rd Dynnyrne.

Bring a hat, sunscreen, warm clothing, a raincoat, sturdy footwear, notepad.

Some walking on steep and uneven terrain required.

Lunch and information kits provided.
